

Legend[®] 220

Image shown here is a Legend[®] 220 in LeatherTex[®] Mocha/Blue

The Softub[®] model that started it all when it was first released in 1986, and still one of our most popular selling models today! The Legend[®] 220 accommodates up to 4 adults, while only making a 6 foot site footprint.

With 5 customizable jets, you can be sure to find your favorite position. Anywhere you choose to sit, it like lounging on your sofa, everywhere you lay your head, is like laying back on a pillow.

- 5 customizable Hydrotherapy Jets
- Multi-colored LED underwater lighting
- HydroMate[®] with SmartChip[™] patented technology
- Handcrafted in New Bedford, MA.
- Industry leading 5 year limited warranty
- Rolls easily through any standard doorway
- Accommodates up to 4 adults
- Durable yet soft Polybond[™] foam construction
- No tools needed (for installation)
- Deluxe folding lid with security locking straps

Portable Electric Spa California ENERGY GUIDE

Manufacturer: Softub, Inc.
Model: Legend 220
Capacity (# of people): 4

Rated Volume
209 USG

Standby Power* **91 Watts**

Maximum standby power allowed for this size spa under California Code of Regulations (CCR) Title 20, section 1605.3(g)(6)(B) and ANSI/APSP/ICC-14 2014: **172 Watts**.

Total annual power consumption in standby mode*: 91 x Duty Cycle = **797 kWh**.

Annual Standby Energy Cost* = 797 x Energy Rate (cost per kilowatt hour in your area).

*Data is based on standard test procedure for Portable Electric Spas as stipulated in CCR Title 20, section 1604(g)(2)(B) and ANSI/APSP/ICC-14 2014.

Note: This is the amount of power used during test conditions and does not include spa usage or extreme cold conditions. This data should be used only for comparison of spa models. Power is not monthly energy consumption. Duty cycle is estimated to be 8,760 hours per year.

Based on testing with the spa manufacturer's specified cover checked below, the spa cover-unit combination that yielded the highest normalized standby power. This spa must be sold with this cover or a manufacturer's approved equivalent that has also been tested with the unit per CCR Title 20, section 1608(a). To view the energy performance of the other covers specified below in combination with this unit, visit the California Energy Commission's Modern Appliance Efficiency Database System (MAEDbS)

Tested Cover Manufacturer(s): Softub

Tested Cover Model(s): Softub 220

Power calculated based on standby mode testing. Actual values will vary based on use.
